From Minutes of DCI Staff Conference _____ 10 December 1951

5 Disabled Personnel

Mr. [REDACTED] stated that Mr. [REDACTED] USO Chief of Station, Far East, was very ill and had to be flown back from the Far East

In connection with the discussion of the foregoing matter, the Director indicated that CIA personnel abroad who became disabled in line of duty should be taken care of, as they would be were they in the military service.

In response to a question from the Director, Mr. Wolf indicated that no legislation was needed at present to accomplish this. In answer to a question from Mr. Carey, the Director indicated that this should apply where the disability was incurred in line of duty whether or not it resulted from enemy action.

10 Career Service

Colonel Baird indicated that were General Davison present he would raise a question as Chairman of the Career Service Committee. There appeared to be some confusion among members of the various working committees as to whether or not they represented their respective offices or the Agency as a whole. The Director stated that such representatives represented the special interests of their respective offices but that it would be necessary to make a rational adjustment of these interests in any CIA-plan, giving due regard to the special interests of each. It would be necessary to come out with an Agency plan, which could not be varied from office to office irrespective of special interests.
